

ATH Cross Lift® 40 UGA

Product Images

Description

High-quality and robust hydraulic drive platform scissor lift with minimal maintenance requirements

Powerful hydraulic unit with load-dependent lowering valve

Suitable for floor-level installation and installation on the ground with optional above-floor kit

With recesses for swivel plates at the front, mechanically lockable swing plates at the rear, wheel-free jack (load capacity: 4 t, lifting height: 450 mm), runners for the optional axle-free jack, pluggable cross-connections, incl. metal safety guard and switch for the optional 24V LED illumination

Pneumatic release of the safety catches, CE-Stop and signal tone when lowering

Emergency lowering system for lowering in case of power failure, synchronisation monitoring via light barrier

Ideally suited for acceptance, wheel alignment, repair and test station for headlamp and driver assistance systems

Additional Information

Rated load capacity	4000 kg
Lifting height max.	2160 mm
Overall width	2140 mm
Overall height	290 mm
Driving power	3,5 kW
Lifting/Lowering time	70 70 s
Power supply voltage	3x 400V / C16A
Color	RAL 7016 / RAL 9005
Total platform length	4230 mm
Installation depth	295 mm
