

ATH Cross Lift® 40 Plus UGA

Product Images

Description

High-quality and robust hydraulic drive platform scissor lift with minimal maintenance requirements

Powerful hydraulic unit with load-dependent lowering valve

Suitable for floor-level installation and installation on the ground with optional above-floor kit

With recesses for swivel plates at the front, pneumatically lockable oscillating plates at the rear, extension of the running rails incl. joint play tester, wheel-free jack (load capacity: 4 t, lifting height: 450 mm), running rails for the optional axle-free jack, pluggable cross-connections, 24V LED lighting incl. metal safety guard and switch

Pneumatic release of the safety catches, CE-Stop and signal tone during lowering

Emergency lowering system for lowering in case of power failure, synchronisation monitoring via light barrier

Ideally suited for acceptance, wheel alignment, repair and test station for headlamp and driver assistance systems

Additional Information

Rated load capacity	4000 kg
Lifting height max.	2160 mm
Overall height	295 mm
Driving power	3,5 kW
Lifting/Lowering time	70 70 s
Power supply voltage	3x 400V / C16A
Concrete strength	C20/25 6100 x 3000 x 200
Color	RAL 7016 / RAL 9005
Total platform length	4830 mm
Installation depth	295 mm
