

ATH Workshop lamp

Product Images

Description

Discover the versatile and powerful ATH workshop lamp, ideal for automotive workshops and repairs on cars, trucks and motorcycles.

The ATH workshop lamp is ideal for a wide range of applications, whether for repairs, outdoor activities or as emergency lighting. With a charging time of only approx. 3 hours and an operating time of up to 8 hours, it reliably accompanies you through any darkness.

Key features:

Swivelling and foldable: offers flexible lighting options thanks to various positioning.

2x magnetic mount: allows easy attachment to metal surfaces for hands-free working.

Sturdy hook: practical for hanging, ideal for confined or hard-to-reach areas.

Product description:

The ATH workshop lamp is multifunctional and perfectly suited for vehicle repairs, hunting as well as indoor and outdoor activities. It serves not only as an inspection lamp, but also as emergency lighting. The innovative spindle structure allows the aluminium light section to be rotated 180 degrees vertically and folded flat horizontally.

Technical data:

Model: ATH workshop lamp

Protection class: III

Degree of protection: IP20

Adapter input: 100–240 V ~ 50/60 Hz

Adapter output: 5 V; 1 A (max.)

Illuminant: main light: 3.3 W 12x SMD, torch: 1.0 W 1x SMD

Luminous flux: 400 lm (main light), 70 lm (torch)

Beam angle: 110° (main light and torch)

Colour temperature: 5700 K (5665 K ± 355 K)

Charging time: approx. 3 hours

Operating time: approx. 3 hours (main light), 8 hours (torch)

Battery: Li-Ion 3.7 V; 2000 mAh

Operating temperature: -10 °C to +40 °C

Dimensions (L/W/H): 44 x 34 x 300 mm

Net weight: 220 g

Additional functions:

Separate push switch: controls the top torch and the main light; roller switch dims the main light from 40 to 400 lumens.

Ergonomic grip: TPR rubber ensures a pleasant feel and a secure hold.

Flexible mounting: magnetic bottom and back; strong metal hook for hanging on poles, branches or ropes.
