Description

Insulated lift pad for ATH 2-post lifts

This precisely manufactured, insulated rectangular lift pad is compatible with all ATH 2-post lifts and provides a stable as well as electrically safe lifting point for workshop use.

Specially developed for electric vehicles (EVs), SUVs and various other vehicle types, the adapter ensures safe load distribution and protects sensitive vehicle components.

Key features:

Three-stage height adjustment: from 39 mm to 95 mm, ideal for various chassis heights.

Insulated design: increases safety when working on high-voltage vehicles.

Robust base plate: 118 mm x 81 mm, adapter diameter Ø 50.7 mm for a secure hold on the lift.

Additional Information

Overall height	10 cm
