

ATH Matrix Lift® 2.80 GA

Product Images

Description

Modern design meets future-oriented lifting technology

The electrohydraulic 2-post lift combines maximum flexibility with state-of-the-art technology. Two fully independent columns communicate wirelessly via industrial radio and operate with precise synchronization thanks to ATH HeartBeat® – without any obstructive cross connection.

The innovative ATH Hytron Lift® concept, durable ATH plunger cylinders, automatic MicroAnts Safety Control and flexible double-jointed arms ensure comfortable, safe and efficient operation.

Plug & Play: position, anchor, fill with oil – ready. High-quality design and fully covered components also make the lift a visual upgrade for every modern workshop.

Additional Information

Rated load capacity	8000 kg
Lifting height max.	2100 mm
Overall width	3790 mm
Overall height	3150 mm
Lifting/Lowering time	50 50 s
Power supply voltage	3x 400V / C16A
Concrete strength	C 25/30 6.000 x 4.000 x 250
Color	RAL 7016 / RAL 9005
